

# MESOFT NONWOVEN SWABS

## MAIN SPECIFICATIONS

- Mesoft swabs and sponges are cost effective alternatives to traditional cotton gauze.
- Mesoft swabs and sponges have a wide range of applications. They may be used for absorption, wound cleansing, protection, disinfection and padding.
- High absorption. Compared to gauze, Mesoft absorbs at least 50% more liquid or wound fluid.
- Soft material that makes Mesoft very gentle to the skin.
- Significantly lower fibre release than traditional gauze.
- A fibre structure that gives excellent cleansing performance.
- Mesoft swabs and sponges retain their shape when wet.
- How to apply: Apply the Mesoft swabs directly on to the wound or use them for wound cleansing. Grip the sponges with a forceps for wound cleansing or disinfection.
